**FOR IMMEDIATE RELEASE**

**TYCO REPORTS THIRD QUARTER 2015 EARNINGS FROM CONTINUING OPERATIONS BEFORE SPECIAL ITEMS OF \$0.59 PER SHARE AND GAAP EARNINGS OF \$0.44 PER SHARE**

- Segment operating margin before special items of 14.8% expands 30 basis points year over year, or 90 basis points when adjusted for non-cash purchase accounting and increased Air-Pak shipments in prior-year quarter
- Diluted EPS from continuing operations before special items increases 9%, or 13% when adjusted for increased product shipments in prior-year quarter
- Provides guidance for fourth quarter 2015 EPS before special items of \$0.60 - \$0.62, a 7%-11% increase year over year
- Tightens full-year guidance to a range of \$2.23 - \$2.25 from \$2.23 - \$2.27, representing earnings growth of 12%-13% from the prior year

**(Income and EPS amounts are attributable to Tyco ordinary shareholders)**

**(\$ millions, except per-share amounts)**

**(All prior periods have been recast to reflect certain businesses as discontinued operations)**

	Q3 2015	Q3 2014	% Change
Revenue	\$ 2,489	\$ 2,660	(6)%
Segment Operating Income	\$ 325	\$ 355	(8)%
Operating Income	\$ 253	\$ 297	(15)%
Income from Continuing Operations	\$ 188	\$ 435	(57)%
Diluted EPS from Continuing Operations	\$ 0.44	\$ 0.93	(53)%
Special Items	\$ (0.15)	\$ 0.39	
Segment Operating Income Before Special Items	\$ 369	\$ 387	(5)%
Income from Continuing Ops Before Special Items	\$ 251	\$ 254	(1)%
Diluted EPS from Continuing Ops Before Special Items	\$ 0.59	\$ 0.54	9 %

CORK, Ireland, July 31, 2015 - Tyco (NYSE: TYC) today reported \$0.44 in GAAP diluted earnings per share (EPS) from continuing operations for the fiscal third quarter of 2015 and diluted EPS from continuing operations before special items of \$0.59. Revenue of \$2.5 billion in the quarter decreased 6% versus the prior year, primarily due to a 7% negative impact of the stronger U.S. dollar against foreign currencies. Organic revenue declined 1% in the quarter. Acquisitions contributed 2 percentage points of growth, which was partially offset by the impact of a divestiture.

“While we were disappointed with our top-line growth, we once again demonstrated our ability to leverage and accelerate internal productivity and cost containment initiatives to deliver on our earnings commitment for the quarter,” said Tyco Chief Executive Officer George R. Oliver. “We produced strong margin expansion of 90 basis points, driven by an improvement in fundamentals in our North America Installation & Services business. That, combined with additional restructuring actions, position us well to achieve 12% to 13% EPS growth for the year,” Mr. Oliver added.

Organic revenue, free cash flow, adjusted free cash flow, operating income, segment operating income, and diluted EPS from continuing operations before special items are non-GAAP financial measures and are described below. For a reconciliation of these non-GAAP measures, see the attached tables. Additional schedules as well as third quarter review slides can be found in the Investor Relations section of Tyco’s website at <http://investors.tyco.com>.

## SEGMENT RESULTS

The financial results presented in the tables below are in accordance with GAAP unless otherwise indicated. All dollar amounts are pre-tax and stated in millions. Certain businesses have been classified as discontinued operations. The revenue and operating income results shown below have been adjusted to reflect these changes in all periods presented. All comparisons are to the fiscal third quarter of 2014 unless otherwise indicated.

### North America Installation & Services

	Q3 2015	Q3 2014	% Change
Revenue	\$ 972	\$ 968	—%
Operating Income	\$ 160	\$ 117	37%
Operating Margin	16.5%	12.1%	
Special Items	\$ 3	\$ (17)	
Operating Income Before Special Items	\$ 157	\$ 134	17%
Operating Margin Before Special Items	16.2%	13.8%	

Revenue of \$972 million was relatively flat compared to the prior year, as organic growth was offset by the weakening of the Canadian dollar. Organic revenue growth of 1% was driven by 3% growth in installation revenue, while service revenue was relatively flat. Backlog of \$2.5 billion increased 4% year over year and 2% on a quarter sequential basis, excluding the impact of foreign currency.

Operating income for the quarter was \$160 million and the operating margin was 16.5%. Special items were favorable by \$3 million. Before special items, operating income was \$157 million and the operating margin improved 240 basis points to 16.2%. Improved execution and the benefit of restructuring and productivity initiatives drove the operating margin expansion.

## Rest of World Installation & Services

	Q3 2015	Q3 2014	% Change
Revenue	\$ 842	\$ 999	(16)%
Operating Income	\$ 57	\$ 102	(44)%
Operating Margin	6.8%	10.2%	
Special Items	\$ (36)	\$ (11)	
Operating Income Before Special Items	\$ 93	\$ 113	(18)%
Operating Margin Before Special Items	11.0%	11.3%	

Revenue of \$842 million decreased 16% compared to the prior year, driven by a 13% unfavorable impact from foreign currency exchange rates. Organic revenue declined 2%, with a 1% decline in service and a 3% decline in installation revenue. Acquisition growth of 1% was more than offset by a decline related to a divestiture. Backlog of \$1.9 billion decreased 1% year over year and increased 1% on a quarter sequential basis, excluding the impact of foreign currency and the divestiture.

Operating income for the quarter was \$57 million and the operating margin was 6.8%. Special items of \$36 million consisted primarily of restructuring and repositioning charges. Before special items, operating income was \$93 million and the operating margin was 11.0%. The operating margin declined 30 basis points, as the benefit of restructuring and productivity initiatives was more than offset by the revenue decline and the contributing mix of geographies.

## Global Products

	Q3 2015	Q3 2014	% Change
Revenue	\$ 675	\$ 693	(3)%
Operating Income	\$ 108	\$ 136	(21)%
Operating Margin	16.0%	19.6%	
Special Items	\$ (11)	\$ (4)	
Operating Income Before Special Items	\$ 119	\$ 140	(15)%
Operating Margin Before Special Items	17.6%	20.2%	

Revenue of \$675 million decreased 3% in the quarter. Organic revenue declined 3%, including a 5 percentage point headwind related to increased shipments of Scott Safety Air-Pak X3s in the prior year. Acquisitions contributed 7 percentage points of growth, which was offset by changes in foreign currency exchange rates.

Operating income for the quarter was \$108 million and the operating margin was 16.0%. Special items of \$11 million consisted of restructuring and repositioning charges as well as acquisition-related expenses. Before special items, operating income was \$119 million and the operating margin was 17.6%. The 260 basis point decline in operating margin included the impact of the increased shipments of Air-Paks in the prior year, non-cash purchase accounting related to intangibles, and the timing of incremental investments in R&D, which together negatively impacted the operating margin by 330 basis points. Underlying operations improved 70 basis points year over year.

## OTHER ITEMS

- Cash from operating activities was \$249 million and free cash flow was \$186 million, which included a cash outflow of \$44 million from special items primarily related to restructuring and repositioning activities. Adjusted free cash flow for the quarter was \$230 million. The company completed the quarter with \$531 million in cash and cash equivalents.
- Corporate expense for the quarter was \$50 million before special items and \$72 million on a GAAP basis, which includes restructuring and repositioning charges.
- The tax rate before special items was 17.2% for the quarter.
- In July, the company completed the acquisition of FootFall, a global retail intelligence leader, for approximately \$60 million in cash. On an annualized basis, the addition of this business to Tyco's operations is expected to generate approximately \$40 million in revenue.

## ABOUT TYCO

Tyco (NYSE: TYC) is the world's largest pure-play fire protection and security company. Tyco provides more than three million customers around the globe with the latest fire protection and security products and services. A company with \$10+ billion in annual revenue, Tyco has over 57,000 employees in more than 900 locations across 50 countries serving various end markets, including commercial, institutional, governmental, retail, industrial, energy, residential and small business. For more information, visit [www.tyco.com](http://www.tyco.com).

## CONFERENCE CALL AND WEBCAST

Management will discuss the company's third quarter results for 2015 during a conference call and webcast today beginning at 8:00 a.m. Eastern time (ET). Today's conference call for investors can be accessed in the following ways:

- Live via webcast - through the Investor Relations section of Tyco's website at <http://investors.tyco.com>,
- Live via telephone (for "listen-only" participants and those who would like to ask a question) - by dialing 800-857-9797 (in the United States) or 517-308-9029 (outside the United States), passcode "Tyco",
- Replay via telephone - by dialing 866-353-3070 (in the United States) or 203-369-0090 (outside the United States), passcode 4999, from 10:00 a.m. (ET) on July 31, 2015, until 11:59 p.m. (ET) on August 7, 2015, and
- Replay via webcast - through the "Presentations & Webcasts" link on the Investor Relations section of Tyco's website: <http://investors.tyco.com>.

## NON-GAAP MEASURES

*Organic revenue, free cash flow (outflow) (FCF), and income from continuing operations, earnings per share (EPS) from continuing operations, operating income and segment operating income, in each case "before special items," are non-GAAP measures and should not be considered replacements for GAAP results.*

*Organic revenue is a useful measure used by the company to measure the underlying results and trends in the business. The difference between reported net revenue (the most comparable GAAP measure) and organic revenue (the non-GAAP measure) consists of the impact from foreign currency, acquisitions*

*and divestitures, and other changes that either do not reflect the underlying results and trends of the Company's businesses or are not completely under management's control. There are limitations associated with organic revenue, such as the fact that, as presented herein, the metric may not be comparable to similarly titled measures reported by other companies. These limitations are best addressed by using organic revenue in combination with the GAAP numbers. Organic revenue may be used as a component in the company's incentive compensation plans.*

*FCF is a useful measure of the company's cash that permits management and investors to gain insight into the number that management employs to measure cash that is free from any significant existing obligation and is available to service debt and make investments. The difference between Cash Flows from Operating Activities (the most comparable GAAP measure) and FCF (the non-GAAP measure) consists mainly of significant cash flows that the company believes are useful to identify. It, or a measure that is based on it, may be used as a component in the company's incentive compensation plans. The difference reflects the impact from:*

- net capital expenditures,*
- dealer generated accounts and bulk accounts purchased,*
- cash paid for purchase accounting and holdback liabilities, and*
- voluntary pension contributions.*

*Capital expenditures and dealer generated and bulk accounts purchased are subtracted because they represent long-term investments that are required for normal business activities. Cash paid for purchase accounting and holdback liabilities is subtracted because these cash outflows are not available for general corporate uses. Voluntary pension contributions are added because this activity is driven by economic financing decisions rather than operating activity. In addition, the company presents adjusted free cash flow, which is free cash flow, adjusted to exclude the cash impact of the special items highlighted below. This number provides information to investors regarding the cash impact of certain items management believes are useful to identify, as described below.*

*The limitation associated with using these cash flow metrics is that they adjust for cash items that are ultimately within management's and the Board of Directors' discretion to direct and therefore may imply that there is less or more cash that is available for the company's programs than the most comparable GAAP measure. Furthermore, these non-GAAP metrics may not be comparable to similarly titled measures reported by other companies. These limitations are best addressed by using FCF in combination with the GAAP cash flow numbers.*

*The company has presented its income and EPS from continuing operations, operating income and segment operating income before special items. Special items include charges and gains related to divestitures, acquisitions, restructurings, impairments, certain changes to accounting methodologies, legacy legal and tax charges and other income or charges that may mask the underlying operating results and/or business trends of the company or business segment, as applicable. The company utilizes these measures to assess overall operating performance and segment level core operating performance, as well as to provide insight to management in evaluating overall and segment operating plan execution and underlying market conditions. The Company also presents its effective tax rate as adjusted for special items for consistency, and presents corporate expense excluding special items. One or more of these measures may be used as components in the company's incentive compensation plans. These measures are useful for investors because they may permit more meaningful comparisons of the company's underlying operating results and business trends between periods. The difference between income and EPS from continuing operations before special items and income and EPS from continuing operations (the most comparable GAAP measures) consists of the impact of the special items noted above on the applicable GAAP measure. The limitation of these measures is that they exclude the impact (which may be material) of items that increase or decrease the company's reported GAAP metrics, and these non-GAAP metrics may not be comparable to similarly titled measures reported by other*

companies. These limitations are best addressed by using the non-GAAP measures in combination with the most comparable GAAP measures in order to better understand the amounts, character and impact of any increase or decrease on reported results.

The company provides general corporate services to its segments and those costs are reported in the "Corporate and Other" segment. This segment's operating income (loss) is presented as "Corporate Expense." Segment Operating Income represents Tyco's operating income excluding the Corporate and Other segment, and reflects the results of Tyco's three operating segments. Segment Operating Income before special items reflects GAAP operating income adjusted for the special items noted in the paragraph above.

## **FORWARD-LOOKING STATEMENTS**

*This press release contains a number of forward-looking statements. In many cases forward-looking statements are identified by words, and variations of words, such as "anticipate", "estimate", "believe", "commit", "confident", "continue", "could", "intend", "may", "plan", "potential", "predict", "positioned", "should", "will", "expect", "objective", "projection", "forecast", "goal", "guidance", "outlook", "effort", "target", and other similar words. However, the absence of these words does not mean the statements are not forward-looking. Examples of forward-looking statements include, but are not limited to, revenue, operating income, earnings per share and other financial projections, statements regarding the health and growth prospects of the industries and end markets in which Tyco operates, the leadership, resources, potential, priorities, and opportunities for Tyco in the future, Tyco's credit profile, capital allocation priorities and other capital market related activities, and statements regarding Tyco's acquisition, divestiture, restructuring and other productivity initiatives. The forward-looking statements in this press release are based on current expectations and assumptions that are subject to risks and uncertainties, many of which are outside of our control, and could cause results to materially differ from expectations. Such risks and uncertainties include, but are not limited to: economic, business, competitive, technological or regulatory factors that adversely impact Tyco or the markets and industries in which it competes; unanticipated expenses such as litigation or legal settlement expenses; tax law changes; and industry specific events or conditions that may adversely impact revenue or other financial projections. Actual results could differ materially from anticipated results. Tyco is under no obligation (and expressly disclaims any obligation) to update its forward-looking statements. More information on potential factors that could affect the Company's financial results is included from time to time in the "Risk Factors" and "Management's Discussion and Analysis of Financial Condition and Results of Operations" sections of the Company's public reports filed with the U.S. Securities and Exchange Commission (SEC), including the Company's Form 10-K for the fiscal year ended September 26, 2014.*
